3rd of October

Short Course: Qualitative Evidence Synthesis protocol development

TARGET AUDIENCE

This short course is targeted at a wide range of audiences, e.g. postgraduate students, researchers, health professionals and managers, and other decision-makers

PURPOSE

The aim of this course is to provide participants with an understanding of the components of a QES protocol and to provide a practical space where they can develop their QES protocols. Each participant will have an opportunity to draft a QES protocol for the purposes of: protocol registration, peer-review, journal publication, thesis proposal, grant application, and addressing priority or operational questions.

DURATION AND FREQUENCY:

Start

05 October 2022
15h00 - 17h00

End

07 November 2022
15h00 - 17h00

**Sessions will be weekly on Wednesday,
15h00 - 17h00 SAST on Zoom**
